

The Vismo ID Badge

The Vismo ID Badge is a personal safety device, designed to protect those who are out of sight of colleagues, have risk and require a discreet solution. The ID Badge works with GSM, GNSS and Bluetooth connectivity and automatically sends locations back to the Vismo Secure Portal. The ID Badge provides peace of mind to employees as the discreet Red Alert button is available for emergency situations whilst also featuring two-way voice communications.

Features Include:

The Red Alert feature can be activated discreetly to raise an audio alarm. Managers (or Alarm Receiving Centre) will receive an alert along with the individuals location, to escalate as necessary and provide support.

The ID Badge has a slim look and design for comfortable everyday use. A workers ID Badge can be easily slid into one side of the device.

Two-way voice communication is available through the ID Badge and multiple users can be called or sent an SMS.

Technical Specification & Features

Technology	GSM, GPRS, GNSS, Bluetooth
Accuracy	<3m
Battery	1050 mAh Li-Ion Battery
Configurable Buttons	5
GNSS Antenna	Internal High Gain
Cellular Antenna	Internal High Gain
USB	2.0 Micro USB
SIM	Micro-SIM (Vismo Supplied)
Memory	128MB Internal Flash Memory
Dimensions	93 x 64 x 10 mm (L x W x H)
Weight	80 g
Operating Temperature	-25C to +65C
Storage Temperature	-25C to +85C
Operating Humidity	5% to 95% non-condensing
Sensors	Accelerometer (for incapacitation)

The Vismo ID Badge model number GH2500.

For UK and European use only. Please enquire if you are in another country.

Benefits of The Vismo ID Badge

Peace of Mind for Employees

Employees gain peace of mind knowing a ID Badge has the ability to raise an immediate alert if an emergency situation occurs, opens audio call and remains discreet at all times.

Improve Employee Awareness of Risk

Providing workers with an ID Badge helps proactively manage their risk. By using Yellow and Red Alerts this helps increase employee awareness of risk, ensuring workers understand how to raise an alarm and escalate if needs be.

Manage Incidents Effectively

Manage incidents effectively by instantly locating workers in the vicinity of the incident area and communicate effectively through the two-way communication. Bolt-On options for the inclusion of a 24/7 Alarm Receiving Centre are also available if you'd prefer to outsource incident management.
